

Hospice and Palliative Credentialing Center (HPCC) CHPN[®] Hospice and Palliative Accrual for Recertification (CHPN[®] HPAR)

All professional development activities achieved in the process of renewal of certification by the accrual method should extend knowledge and improve the candidate's practice of hospice and palliative care. The requirements of HPAR help to demonstrate continuing competence by allowing professionals to exhibit critical thinking skills and express competencies through continuing education, scholarly accomplishments, and professional contributions. These activities should be consistent with the scope of hospice and palliative nursing practice as stated in the ANA/HPNA *Palliative Nursing: Scope and Standards of Practice –An Essential Resource for Hospice and Palliative Nurses* and the vision and mission of HPCC.

CHPN[®]s are required to renew their certification through the HPAR process. CHPN[®] HPAR applications **MUST** be submitted through the online platform called *LearningBuilder*. Each certificant has their own Learning Plan available, which allows the certificant to record their professional development activities and earn HPAR points toward successful recertification. More information about *LearningBuilder* is available at www.goHPCC.org.

The HPAR policy and application process are reviewed annually by the HPCC Board of Directors. It is your responsibility, before finalizing your HPAR submission, to assure that you are using the most current policy and process for the year in which you are submitting your HPAR application.

Renewal of certification requirements: Professional development and practice hours

- Hold a current CHPN[®] certification
- Hold a current, unrestricted registered nurse license in the United States, its territories, or the equivalent in Canada
- Complete the required practice hours in the specialty
- Complete the professional development point accrual
- Pay the renewal fee

Reactivation of credential:

Candidates who missed the deadline for recertification beginning in December of 2015 and meet the requirements for reactivation may use the LearningBuilder platform to submit for reactivation according to individualized adjustments for dates of submission. Reactivation will be available for **three years** after expiration of credential. Nurses may not use the credential after it expires but may use it again after being notified that their certification has been reactivated. Reactivation is **NOT** retroactive and the certification period will begin when notified and continue for four years from that date. **Certificants interested in pursuing the reactivation process must notify HPCC by phone or email of their intention to reactivate. Learning Plans will not be accessible without contacting HPCC.**

Example: If a nurse who was due to renew in 2017 missed the final deadline and applies for and is granted reactivation on February 15, 2018, that certification will expire February 14, 2022.

Reactivation for expired certification requirements: Professional development and practice hours

- CHPN® certification has been expired for less than 3 years.
- Hold a current, unrestricted registered nurse license in the United States, its territories or the equivalent in Canada.
- Contact HPCC with your intention to pursue reactivation.
- Complete the professional development point accrual during the **reporting period** as designated in your learning plan within LearningBuilder.
- Complete the required practice hours in the specialty.
- Pay the renewal fee plus a reactivation fee.

POINT ACCRUAL CATEGORIES

A. SITUATIONAL JUDGMENT EXERCISE

Completion of the Situational Judgment Exercise (SJE) is a **required** component of the CHPN® HPAR. The SJE is an **open book** online exercise which uses a series of case based scenarios to demonstrate critical reasoning and clinical application of content beyond the level of the initial certification exam. The SJE provides an in-depth assessment of the approach taken by the CHPN® to handle the complexity of real life clinical situations. In addition to assessment and treatment decision making, it also addresses ethical and professional topics including team building, communication, public policy, and research.

The SJE scenarios are designed with the intention of Information Gathering (IG) and Decision Making (DM) reflecting two different underlying constructs relevant to hospice and palliative nursing practice. Previous analysis has indicated that IG and DM are measuring different competencies. Your score on the Information Gathering (IG) and Decision Making (DM) sections is compared to a “minimum performance level” (MPL) established by the subject matter experts who created the SJE.

- How scores meet or exceed the total MPL on both the IG and DM will determine the number of HPAR points earned.

Performance Category	HPAR Points
Meet or Exceed MPL (Passing Score) on Both IG and DM	20
Meet or Exceed MPL (Passing Score) on Either IG or DM	10
Below MPL (Passing Score) on both IG and DM	5

After completing the SJE, your SJE score will be uploaded into your Learning Plan. Allow one business day for these results to be added to your Plan.

Detailed information on the SJE can be found on the HPCC website www.goHPCC.org under Certification.

B. CONTINUING EDUCATION

Through attendance at live programs or through self-study educational programs, either in print or online that award contact hours offered by providers (such as journals, professional organizations, or hospitals) that have been approved by an accredited approver of nursing, medical or other health care discipline continuing education.

Several state boards of nursing require continuing education for renewal of licensure. However, not all state boards require that the continuing education be offered by accredited or approved providers or have been approved by an accredited approver.

Therefore, some continuing education programs may be acceptable for candidate re-licensure in their state but NOT acceptable for renewal of certification through CHPN® HPAR by HPCC.

Activities should be selected to enhance expertise in hospice and palliative nursing and must relate to the CHPN® detailed content outline.

Activities relevant to general nursing cannot be utilized for HPAR points. These include the following topics:

- CPR
- ACLS
- OSHA
- HIPAA
- Domestic Violence
- Adult/pediatric neglect and abuse

Examples include: providing education on a different unit, during the interdisciplinary team meeting or at another organizational worksite/outreach facility.

For instance, a one-hour presentation to staff members on a new clinical topic or the findings from researching an evidence-based treatment would be 60 minutes = 6 HPAR points.

- Length of the presentation must be at least 20 minutes.
- HPAR Points are awarded based on presentation time:
