

Hospice and Palliative Credentialing Center (HPCC) CHPLN[®] Hospice and Palliative Accrual for Recertification (CHPLN[®] HPAR)

All professional development activities achieved in the process of renewal of certification by the accrual method should extend knowledge and improve the candidate's practice of hospice and palliative care. The requirements of HPAR help to demonstrate continuing competence by allowing professionals to exhibit critical thinking skills and express competencies through continuing education, scholarly accomplishments, and professional contributions. These activities should be consistent with the scope of hospice and palliative nursing practice as stated in the *HPNA Statement on the Scope and Standards of Hospice and Palliative Licensed Practical/Vocational Nursing Practice* and the vision and mission of HPCC.

The HPAR policy and application process are reviewed annually by the HPCC Board of Directors. It is your responsibility, before finalizing your HPAR submission, to assure that you are using the most current policy and application process for the year in which you are submitting your HPAR. Please note, you can submit your application during the 12 months prior to your certification expiration date.

Renewal of certification requirements: Professional development and practice hours

- Hold a current CHPLN[®] certification
- Hold a current, unrestricted licensed practical/vocational nurse license in the United States or its territories
- Complete the required practice hours in the specialty
- Complete the professional development point accrual
- Pay the renewal fee

Reactivation of credential:

Candidates who missed the deadline for recertification and meet the requirements for reactivation may use this application to submit for reactivation. The reporting period time for which you can take credit for professional development activities will be adjusted according to your current reporting period and the dates of submission. Reactivation will be available for three years after expiration of credential. Nurses may not use the credential after it expires but may use it again after being notified that their certification has been reactivated. Reactivation is **NOT** retroactive and the certification period will begin when notified and continue for four years from that date. **Certificants interested in pursuing the reactivation process must notify HPCC by phone or email of their intention to reactivate.**

Example: If a nurse who was due to renew in 2017 missed the final deadline and applies for and is granted reactivation on February 15, 2018, that certification will expire February 14, 2022. If the original reporting period was 03-15-2013-12/31/2017, the new reporting period would be 03/15/2014-12/31/2018.

Reactivation for expired certification requirements: Professional development and practice hours

- CHPLN[®] certification has been expired for less than 3 years.
- Hold a current, unrestricted licensed practical/vocational nurse license in the United States, or its territories
- Contact HPCC with your intention to pursue reactivation.

- Complete the professional development point accrual during the new **Reporting Period** as verified with HPCC staff
- Complete the required practice hours in the specialty.
- Pay the renewal fee plus a reactivation fee.

***Please note that recertification through HPAR will be the only option for CHPLN[®] recertification beginning 1/2018. Retesting will not be available from 1/2018 onward.**

Therefore, some continuing education programs may be acceptable for candidate re- licensure in their state but NOT acceptable for renewal of certification through CHPLN® HPAR by HPCC.

Activities should be selected to enhance expertise in hospice and palliative nursing and must relate to the CHLPN® detailed content outline.

Activities relevant to general nursing cannot be utilized for HPAR points. These include the following topics:
